PROJECTS

Games:

I made following fun Games-

- Snake Game
- Dice Game
- Drum Kit
- The Simon Game

Daily Journal:

- Daily Journal
Blog project is all about storing data, composing new blogs. It contains node modules and EJS learnings.
- ToDo List
Simple version of To-do List app where we can add our daily targets and track them.
- Keeper
Keeper is React project where we can add daily notes or can use as diary.

Social Media:

Social media sites made by me:

- Secrets App
Secrets app is social media app where one can share his/her secrets anonymously and can see others secrets also.
- Netflix-clone
- Tindog
Tindog is dating app for dogs. It is fun app made for my understanding and during learning of html, css and JS.

Other React.js and APIs Projects:

- Emojipedia
Emojipedia is explanation about meaning of different emoji's we use. Made by using Reactjs.
- Live Clock
Live clock website made by using React components.
- Weather App
This project contains learnings of Weather API. Made this project during initial learnings of APIs.
